### 2. Hazard identification

**Summary** KEEP OUT OF REACH OF CHILDREN. Do not ingest. If medical advice is needed, have this SDS or label at hand. Wear eye protection, gloves and other protective clothing that are adapted to the task being performed and the risks involved.

WHMIS 2015/GHS/OSHA HCS 2012

### Not Regulated under WHMIS 2015

P101: If medical advice is needed, have product container or label at hand.

P102: Keep out of reach of children.

P103: Read label before use.

## 3. Composition/information on ingredients

| Common name   | CAS       | Weight % content |
|---|-----------|------------------|
| 4-Chloroindole-3-acetic acid  | 2519-61-1 | 3 to 7 %         |
| Note: This product is not regulated by WHMIS 2015 (Hazardous Products Regulations) and by OSHA 29 CFR 1910.1200 |           |                  |

(OSHA HCS 2012). Components not listed are not hazardous or are below reportable limits. The manufacturer withholds the actual concentration range of the ingredient as a trade secret. 4-Chloroindole-3-acetic acid (CAS no 2519-61-1) is present as potassium salt in this product.

| 4. First-aid measures |   |  |
|-----------------------|---|--|
| Inhalation            | Move person to fresh air. If a problem develops or persists, seek medical attention.  |  |
| Skin contact          | Wash skin with warm water and mild soap. Remove contaminated clothing and wash before reuse. If a problem develops or persists, seek medical attention.                         |  |
| Eye contact           | Flush with water for at least 15 minutes. Remove contact lenses if easy to do. Hold eyelids apart to rinse properly. If a problem develops or persists, seek medical attention. |  |

WeedOut® Ultra Professional

| Ingestion              | DO NOT induce vomiting, unless recommended by medical personnel. If victim is conscious wash out mouth with water and give 1-2 glasses of water to drink. Never give anything by mouth if victim is unconscious or convulsing. If a problem develops or persists, seek medical attention or contact a Poison Centre. |  |
|------------------------|--|--|
| Other                  | No additional information.   |  |
| Symptoms               | Direct contact with eyes may cause temporary irritation.   |  |
| Notes to the physician | Apply a symptomatic and supportive treatment.  |  |

| 5. Fire-fighting I                              | 5. Fire-fighting measures  |  |  |
|---|--|--|--|
| Suitable extinguishing media                    | Use an extinguishing agent appropriate for the surrounding fire.               |  |  |
| Specific hazards arising<br>from the chemical   | No additional information.   |  |  |
| Special protective equipment                    | Firefighters must wear self contained breathing apparatus with full face mask. |  |  |
| Special protective<br>actions for fire-fighters | No additional information.   |  |  |

| 6. Accidental release measures   |  |  |
|--|--|--|
| Personal precautions,<br>protective equipment<br>and emergency<br>procedures | Make sure to wear personal protective equipment mentioned in this Safety Data Sheet.   |  |
| Environmental<br>precautions   | Prevent product from entering drains and release to the environment.   |  |
| Methods and materials<br>for containment and<br>cleaning up                  | Ventilate the area well. Absorb with inert material (soil, sand, vermiculite) and place in an appropriate waste disposal clearly identified. Finish cleaning by rinsing with water contaminated surface. |  |

| 7. Handling and storage  |  |  |
|--|--|--|
| Precautions for safe<br>handling                                   | Use in well ventilated area. Avoid contact with skin, eyes and clothing. Do not breathe vapors and aerosols. Wear eye protection, gloves and other protective clothing that are adapted to the task being performed and the risks involved. Keep containers tightly closed when not in use. Do not eat, do not drink and do not smoke during use. After use, wash hands with soap and water. |  |
| Conditions for safe<br>storage, including any<br>incompatibilities | Store tightly closed and in properly labelled containers in a cool, dry and well-ventilated place.<br>Keep away from food and drink. Keep away from direct sunlight and heat. Keep away from<br>freezing.  |  |
| Storage temperature  | 4 to 35°C (39.2 to 95°F)   |  |

## 8. Exposure controls/personal protection

| Immediately Dangerous<br>to Life or Health | No IDLH value is reported.   |  |  |
|--|--|--|--|
|  | Provide sufficient mechanical (general and/or local exhaust) to keep the airborn concentrations of dust below their respective occupational exposure limits. |  |  |
| Individual protection mea                  | Individual protection measures   |  |  |
|  | In the workplace, wear safety glasses with side shields. If there is a risk of contact with eyes, wear chemical splash goggles.                              |  |  |
|  | In case of prolonged contact wear neoprene or nitrile gloves. Disposable nitrile gloves can also be used, but discard after single use.                      |  |  |

| Skin        | Personal protective equipment for the body should be selected based on the task being performed and the risks involved. Wear normal work clothing covering arms and legs as required by employer code.  |  |
|-------------|---|--|
| Respiratory | Respiratory protection is not required for normal use. Where the conditions in the workplace require a respirator, it is necessary to follow a respiratory protection program. Moreover, respiratory protection equipment (RPE) must be selected, fitted, maintained and inspected in accordance with regulations and standard 29 CFR 1910.134 (OSHA), ANSI Z88.2 or CSA Z 94.11 (Canada) and approved by NIOSH/MSHA. |  |
| Feet        | Not required in normal use.   |  |
|             |   |  |
|             | Safety glasses  |  |

| Physical state       | Liquid            | Flammability                             | Non-flammable     |
|----------------------|-------------------|--|-------------------|
| Colour               | Clear amber       | Flammability limits                      | N/Av.             |
| Odour                | N.Av.             | Flash point                              | N/Av.             |
| Odour threshold      | N/Av.             | Auto-ignition<br>temperature             | N/Av.             |
| рН                   | 7.0 to 8.5        | Sensibility to electrostatic charges     | N.Av.             |
| Melting point        | 0°C (32°F)        | Sensibility to sparks<br>and/or friction | No                |
| Freezing point       | 0°C (32°F)        | Vapour density                           | N/Av. (Air = 1)   |
| Boiling point        | N/Av.             | Relative density                         | N/Av. (Water = 1) |
| Solubility           | Soluble in water. | Partition coefficient<br>n-octanol/water | N/Av.             |
| Evaporation rate     | N/Av.             | Decomposition<br>temperature             | N/Av.             |
| Vapour pressure      | N/Av.             | Viscosity                                | 0.99 cSt          |
| Percent Wt. Volatile | N/Av.             | Molecular mass                           | N/Av.             |
| VOC (g/L)            | N/Av.             | % Volume Volatile (VOC)                  | N/Av.             |
| VOC (lb/gal)         | N/Av.             | % Wt. Volatile (VOC)                     | N/Av.             |

| 10. Stability and reactivity                                   |  |
|--|--|
| Reactivity   | No reactivity expected.                      |
| Chemical stability   | Stable under recommended storage conditions. |
| Possibility of hazardous reactions (including polymerizations) | A dangerous reaction will not occur.         |
| Conditions to avoid  | Protect from freezing.                       |
| Incompatible materials   | None reported.                               |
| Hazardous decomposition products                               | No decomposition product.                    |

These transportation classifications are provided as a customer service. As the shipper YOU remain responsible for complying with all applicable laws and regulations, including proper transportation classification and packaging. In addition, if a domestic exemption exists, it is the responsibility of the shipper to define the application of it.

### 15. Regulatory information

### PEST CONTROL PRODUCT

There are Canada-specific environmental requirements for handling, use and disposal of this pest control product that are indicated on the product label.

#### RHazardous Products Regulations Information:

This product has been classified in accordance with the amended Hazardous Products Act (HPA) and the Hazard Criteria of the Hazardous Products Regulations (HPR), and the SDS contains all the information required by the HPR.

### Hazardous Products Act Information:

Pest control products, as defined in subsection 2(1) of the Pest Control Products Act (PCPA), are excluded from the application of the Hazardous Products Act (that is, pest control products are exempt from the supplier labelling and SDS requirements of the Hazardous Products Act and Regulations). This product has been voluntarily classified according to the WHMIS 2015 standard.

#### Pest Control Products Act Registration Number: 32516

Read the label, authorized under the Pest Control Products Act, prior to using or handling the pest control product.

This chemical is a pest control product registered by Health Canada Pest Management Regulatory Agency and is subject to certain labelling requirements under the Pest Control Products Act (PCPA). These requirements differ from the classification criteria and hazard information required for GHS-consistent safety data sheets. Following is the hazard information required on the pest control products label:

#### PCPA Label Hazard Communications:

KEEP OUT OF REACH OF CHILDREN. READ THE LABEL BEFORE USING.
