Introducing the effective spot treatment
WEEDOUT® ULTRA PROFESSIONAL
to the lawn care market

WEED OUT®

ULTRA PROFESSIONAL

This selective herbicide harnesses the power of a plant hormone naturally found in peas and broad bean plants to target and eliminate broadleaf weeds*.

- ✓ Kills plantains and dandelions at the root for long-lasting results
- ✓ 96% mortality on broadleaf plantains, 82% on dandelions at week 10
- ✓ Concentrated solution adapted to lawn care professionals

*Read the label for full list of species.

Registration Number 32516 Pest Control Products Act. Read the label before using.
